I use these books as a Literacy Center for my students. They trace the words in the sentence with a thin lined marker and color the picture. To put them together, just copy them, cut them in half and staple the pages together.

These books can be send home so he student can read it to/with an adult, or you can add them to the students’ book boxes and kept at school to re-read for fluency. You could also keep the books and use them during guided reading groups or in a reading center.
